

Safia Lounassi

Computer Science Engineering Student | Cybersecurity | Full-Stack Developer

Adrar, Algeria | louanssisafia6@gmail.com | github.com/cssafia | linkedin.com/in/lounassi-safia-594641259 | Portfolio

Profile

Computer Science Engineering student at ESI SBA specializing in Cybersecurity, with hands-on Full-Stack experience building web and mobile applications using React, Node.js, Express, PostgreSQL, MySQL, Laravel, and Flutter. Experienced in REST APIs, authentication, database workflows, document management, and enterprise IT environments.

Education

Higher School of Computer Science (ESI SBA) 2023–2028 *Computer Science Engineering – Cybersecurity Specialization* Sidi Bel Abb'ès, Algeria

Experience

Full-Stack Developer Intern 2 Months *SolRus – Zakat Aid Project* Internship

- Developed a full-stack platform for student financial-aid applications covering submission, document collection, review, commission decisions, fund allocation, and follow-up.
- Implemented role-based workflows for applicants, volunteers, commissions, and administrators, including application and user management.
- Built document management, PDF/CSV exports, audit tracking, renewal workflows, and notifications using React, Node.js, Express, and PostgreSQL.

IT and Networking Intern Internship *Algeria Telecom – Adrar* Adrar, Algeria

- Gained practical exposure to enterprise IT infrastructure, telecommunications operations, and networking environments.
- Observed network operations and troubleshooting while learning how enterprise IT workflows support business services.

Selected Projects

ZeroWaste University Project *Mobile and Web Platform – Flutter, Next.js, Express, MySQL* GitHub

- Built a food redistribution platform connecting donors, organizations, and beneficiaries with donation, reservation, tracking, notifications, and location-based features.

Algeria Post Hackathon *Citizen Engagement Platform – React, Laravel, MySQL* GitHub | Demo

- Developed complaints, suggestions, news, services, ATM availability, and AI chatbot features. **3rd Place – Community Engagement Track.**

EventSphere University Project *Event Management Platform – React, Laravel, MySQL* Demo

- Developed event creation, booking, scheduling, and participant-management workflows for clubs and organizations.

Technical Skills

Languages JavaScript, Python, C, C++, PHP, Dart
